Changes for the Better

ONE

MITSUBISHI ELECTRIC

Providing people with a better life.

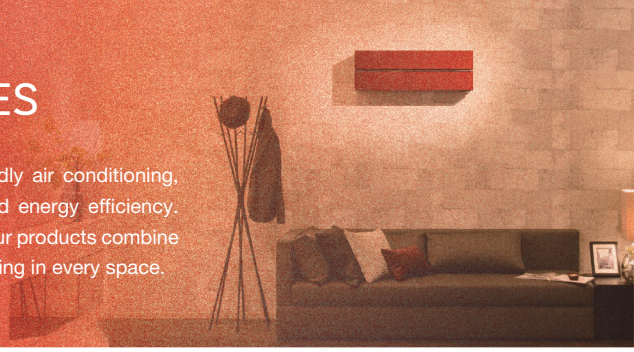

AIR CONDITIONING & HOME APPLIANCES

Mitsubishi Electric offers an ever-growing range of high-quality, innovative, and user-friendly air conditioning, ventilation, and home appliance solutions designed to enhance comfort, convenience, and energy efficiency. Trusted across homes, commercial buildings, and public facilities in Hong Kong and Macau, our products combine advanced technology, reliable performance, and thoughtful design, supporting sustainable living in every space.

AIR CONDITIONING PRODUCTS

VRF "City-Multi" System (Outdoor Unit)

VRF "City-Multi" System (Indoor Unit)

Modular Water-cooled Chiller (MWCC) Compact-Cube

Package-Type Commercial A/C

"Power-Multi" Residential Multi A/C System

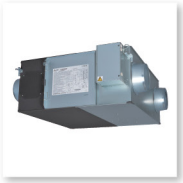

"Mr.Slim" Commercial A/C

VENTILATION PRODUCTS

Air Conducting Fan

Heat Exchange Ventilator (Lossnay)

Air Curtain

Pressurized Ventilator

Thermo Bathroom Ventilator

HAND DRYER

"Jet Towel" Hand Dryer

HOME APPLIANCES

Plasma Quad Plus Split-Type Air Conditioner

Refrigerator

Dehumidifier

ELEVATOR & ESCALATOR

From as early as the 1930s, Mitsubishi Electric has enjoyed a solid global reputation for its technologically advanced, reliable, safe and comfortable elevators and escalators. In Hong Kong in particular, Mitsubishi Electric has been the go-to brand for elevators and escalators in public and private buildings and transportation hubs, impacting a significant percentage of Hong Kong's citizens every single day.

ESCALATOR

Spiral Escalator (Times Square)

(SOGO Department Store)

ELEVATOR

Double deck Elevator (Hysan Place)

(Hong Kong International Airport)

(AIRSIDE)

(The Twins)

(The Henderson)

SOCIAL INFRASTRUCTURE

Since its inception, Mitsubishi Electric has been committed to delivering innovative, highly reliable, environmentally friendly products, technologies, systems and services that enhance quality of life in Hong Kong and Macau, serving structures from homes to major utility and public infrastructure projects. Our product portfolio is broad, spanning modern one-stop energy solutions, and railway and transportation systems that shape how we design, build, and manage essential community services.

ENERGY SYSTEMS

440MVA Turbine Generator

400kV Gas Insulated Switchgear

275kV Gas Insulated Switchgear

275kV Gas Transformer

132kV Gas Transformer

6.6kV Switchboard

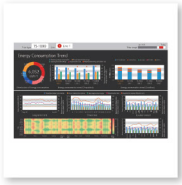

PDM System

Cubicle Type Gas Insulated Switchgears (C-GIS)

RAILWAY SYSTEMS

Traction Transformer

Station Energy Saving Inverter (S-EIVR)

Wayside Monitoring & Diagnostic Systems (WMDS)

VISUAL INFORMATION SYSTEMS

Large-scale Video DIsplay

FACTORY AUTOMATION

Mitsubishi Electric delivers advanced automation technologies, products, integrated systems and solutions that help enhance productivity, operational efficiency and energy management across building management, industrial and infrastructure sectors. Serving customers throughout Hong Kong, Macau and Mainland China, we combine engineering expertise with innovative technologies to support smarter manufacturing, reliable operations, and long-term business competitiveness in an increasingly connected world.

CONTROL PRODUCTS

Programmable Logic Controllers - MELSEC series

DRIVE PRODUCTS

Inverter (Variable Frequency Drives) - FREQROL 800 series

LOW-VOLTAGE PRODUCTS

Low-voltage Circuit Breaker - WS series

POWER MANAGEMENT PRODUCTS

Energy-saving Data Collecting Server - EcoWeb Server III

SCADA Software – ICONICS GENESIS64

Power Quality Energy Monitoring System (PQEMS)
