

# ONE

## MITSUBISHI ELECTRIC

CONNECTING ALL OF HONG KONG

## SOCIAL INFRASTRUCTURE

Since its inception, Mitsubishi Electric has been highly recognized in the field of social infrastructure for products, systems and services supply as well as installation of Hong Kong and Macau's major utilities and public infrastructure projects. We provide these systems in tandem with a full range of service expertise that spans project planning, contract execution, highly advanced systems and solutions as well as responsive after-sales services from our technical staff fully trained to help solve any technical problems.

### POWER SYSTEMS

440MVA Turbine Generator

400kV Gas Insulated Switchgear

275kV Gas Insulated Switchgear

275kV Gas Transformer

132kV Gas Transformer

6.6kV Switchboard

PDM System

### RAILWAY SYSTEMS

Traction Transformer

Station Energy Saving Inverter (S-EIV®)

### WEATHER RADAR & LIDAR SYSTEMS

Doppler Weather Radar System

Doppler LiDAR System

### LARGE-SCALE VIDEO DISPLAY

## SEMICONDUCTOR

The early 1990s saw Mitsubishi Electric semi-conductors and devices enter the promising Mainland market. Since that time, the entire focus of our operations has been to dedicate a full range of resources, innovation and experience toward developing and manufacturing very high-efficient, high-performance products. We tirelessly strive to provide complete electronic solutions that connect all facets of society in a more environmentally friendly way.

### POWER DEVICES

Home Appliance - DIPIPM

Railway Traction - HVIGBT

Electric Vehicles - EV T-PM

Renewal Energy - IGBT/IPM

### OPTICAL DEVICES

Fiber Network - Optical Devices

Base Station - High Frequency Devices

Silicon RF Devices

## ELEVATOR & ESCALATOR

Mitsubishi Electric elevators and escalators as well as moving walkways are seen in operation all over Hong Kong as part of our installation, modernization and maintenance services for buildings and complexes both big and small. We put our expertise, sophisticated technology, advanced methodologies and high level professionalism to work every day to ensure that Hong Kong people enjoy safe, reliable and comfortable vertical transportation options that connect with all users.

### ESCALATOR

Spiral Escalator (Times Square)

(SOGO Department Store)

### ELEVATOR

Double deck Elevator (Hysan Place)

(Hong Kong International Airport)

(AIRSIDE)

(Mei Foo Sun Chuen)

## LIVING ENVIRONMENT & DIGITAL MEDIA EQUIPMENT

For decades, Mitsubishi Electric air conditioners and home appliances have been the trusted and respected brand of choice for people in Hong Kong, Macau and the Mainland. Easy to install and operate, our highly advanced, environmentally friendly products connect to everyone's lives and make them better. Mitsubishi Electric's commitment to customers has also been distinguished by high level professional services coupled with highly effective systems and solutions.

### AIR CONDITIONING PRODUCTS

VRF "City-Multi" System (Outdoor Unit)

Modular Air-cooled Chiller (MACC) e-series

Modular Water-cooled Chiller (MWCC) Compact-Cube

VRF "City-Multi" System (Indoor Unit)

Package-Type Commercial A/C

"Power-Multi" Residential Multi A/C System

"Mr.Slim" Commercial A/C

### VENTILATION PRODUCTS

Air Conducting Fan

Heat Exchange Ventilator (Lossnay)

Air Curtain

Pressurized Ventilator

Thermo Bathroom Ventilator

### HAND DRYER

"Jet Towel" Hand Dryer

### HOME APPLIANCES

Split-Type Air Conditioner

Refrigerator

Dehumidifier

IH Rice Cooker

## FACTORY AUTOMATION

Improved productivity, enhanced efficiency, greater overall competitiveness along with energy conservation are the hallmarks of Mitsubishi Electric Factory Automation. We enhance people's daily lives with the high quality in automation technology, products, integrated systems and other solutions for factories and infrastructure projects throughout Hong Kong, Macau and the Mainland. Moreover, the desire to serve and connect more closely with our customers has led us to create extensive sales and operations distribution networks along with technical support and assistance.

### CONTROL PRODUCTS

Programmable Logic Controllers - MELSEC series

### DRIVE PRODUCTS

Inverter (Variable Frequency Drives) - FREQROL 800 series

### LOW-VOLTAGE PRODUCTS

Low-voltage Circuit Breaker - WS series

### POWER MANAGEMENT PRODUCTS

Energy-saving Data Collecting Server - EcoWeb Server III

SCADA Software - ICONICS GENESIS64

Multi-function Meter
